154(b)(1)(A)(i) and 37 C.F.R. § 1.703(a)(1), the above-identified application is entitled to a patent term adjustment for this examination delay.

37 C.F.R. § 1.705(b)(2)(iii) - Although the claims were rejected under the judicially created doctrine of obviousness-type double patenting, Applicants' response overcame the rejection and the above-identified application is not subject to a terminal disclaimer.

37 C.F.R. § 1.705(b)(2)(iv)(B) - The March 4, 2005 Office Action contained an error in the applicable prior art reference, making it impossible for Applicants to reply to the Office Action correctly. Applicants representative contacted the Examiner on April 5, 2005 and requested clarification of the applied prior art reference.

The Examiner issued a new Office Action on April 22, 2005 and restarted the shortened statutory period for reply. See page 2 of the April 22, 2005 Office Action.

Applicants timely replied to the April 22, 2005 Office Action on July 21, 2005. No extension of time was necessary. The July 21, 2005 response did not constitute a failure to engage in reasonable efforts to conclude processing or examination of the above-identified application because it was timely filed, without extension, in response to the April 22, 2005 Office Action.

Attached hereto are is the Patent Application Information Retrieval (PAIR) page for the above-identified application which clearly shows that the April 22, 2005 Office Action reset the shortened statutory period for reply.
